

## **Joe E. Holoubek, M.D. and Alice Baker Holoubek, M.D. Collection**

<b>Collection Number</b>	MC002
<b>Dates</b>	1916 - 2006
<b>Volume</b>	19.26 cu.ft.
<b>Provenance</b>	Donated by Martha Holoubek Fitzgerald in 2007.
<b>Restrictions</b>	Available for research use by the serious student and scholar.
<b>Copyright</b>	This collection may be protected from unauthorized copying by the Copyright Law of the United States (Title 17, United States Code).

### **BIOGRAPHICAL SKETCH**

Joe E. Holoubek, M.D. and Alice Baker Holoubek, M.D. began their medical practice in Shreveport, Louisiana in 1946. They spent their entire professional careers in Shreveport, where they were also members of the Visiting Staff of the Louisiana State University Medical Center (now LSU Health Sciences Center). Joe Holoubek was a main force in the effort to secure a medical school in Shreveport, a dream that was realized with the establishment of the Louisiana State University School of Medicine in Shreveport in 1966.

Joe Edward Holoubek was born in 1915 near Clarkson, Nebraska. He entered the University of Nebraska at age 16 and was accepted at the University's School of Medicine in Omaha two years later. Holoubek was selected for a summer fellowship program at Mayo Clinic in 1937 and it was here that he met his future wife, Alice Baker. He received his medical degree in 1938.

Alice Baker Holoubek was born in 1914 in Paragould, Arkansas. She graduated with top honors from high school in Alexandria, Louisiana in 1931 and three years later, graduated from Louisiana State University in Baton Rouge. Alice Baker began her medical school studies at the LSU School of Medicine in New Orleans and was one of the first women to graduate in 1938.

Joe Holoubek interned in Omaha at University Hospital and Alice at Charity Hospital in New Orleans. Both doctors were plagued with illnesses during their internships. Alice contracted tuberculosis during one of her first rotations and spent a number of months at home recovering. Joe was hospitalized with staph infections and scarlet fever. Despite these setbacks, they were married in July 1939, shortly after accepting post-graduate fellowships at the LSU School of Medicine in New Orleans. Joe was called to active duty during World War II and served in the U.S. Army Medical Corps at LaGarde General Hospital in New Orleans until the War ended in 1945. Despite suffering health problems related to Alice's tuberculosis, two of the Holoubek's four children were born in 1943 and 1945.

Dr. Richard Norfleet, a colleague at LaGarde, invited Joe Holoubek to join his practice in Shreveport, Louisiana in 1946. A short time later, Holoubek established his own medical practice in Shreveport. Alice once again had problems with tuberculosis, but in 1948 and 1951, two more children joined the Holoubek family. By the early 1950s, her tuberculosis was under control and Alice was able to join her husband's practice. The Holoubeks were early believers in preventive medicine and Joe Holoubek pioneered the use of the EKG machine in Shreveport. In the early 1980s, three young physicians, Alan Borne, Ken Booth and Maurice Hawley were added to the Holoubeks' practice. Alice retired in the mid-1980s and Joe retired in 1990.

Beginning in 1950, Dr. Joe Holoubek led the drive to establish a medical school in Shreveport. He served as chair of the committee that in 1965 finally secured funding for the development of the LSU School of Medicine in Shreveport. Both Joe and Alice served on the Visiting Staff of the Confederate Memorial Medical Center as clinical professor of medicine and assistant professor of medicine, respectively.

Alice Holoubek suffered from stroke-related dementia for several years before her death in 2005 and Joe Holoubek died of myocardial infarction in 2007. A Holoubek Professorship in Medicine was created in 2006 at the LSU Health Sciences Center in Shreveport and a professorship in the name of Dr. Alice Baker Holoubek was established in 2008 at her alma mater in New Orleans.

A more detailed biography of Drs. Joe E. and Alice Baker Holoubek, written by their daughter, Martha Holoubek Fitzgerald, can be found [here](#). [note – I think I can make a link to another Word document from here]

## SCOPE AND CONTENT

The Joe E. Holoubek and Alice Baker Holoubek Collection consists primarily of medical equipment, devices, instruments, medicines, and supplies used in their medical practice in Shreveport, Louisiana during the 1950s through the 1980s. Several artifacts used by Joe Holoubek as a medical student in Nebraska include a second-hand microscope and a wooden box of glass pathology slides used in his classes.

The Holoubek Collection is divided into eight series: Doctor's Bags; Medical Instruments, Equipment, and Supplies; Typescripts and Manuscripts; Slides; Plaques and Awards; Audiovisuals; Books; and Medical Memorabilia.

The **Doctors' Bags** series contains six doctor's bags that were typical of those used for medical house calls in the 1950s and 1960s. All of the bags are stocked with an assortment of medicines, bandages, general supplies, syringes, stethoscopes, and blood pressure devices.

The **Medical Instruments, Equipment, and Supplies** series consists of artifacts that were typically used in the offices of private practitioners in the 1950s through the 1980s. Instruments include forceps, speculums, ear syringes, goggles, a Turkel trephine, hemostats, and suture needles. Equipment includes ophthalmoscopes, an otoscope, haemacytometers, a head mirror, a cervical traction set, an autoclave, a microscope used by Joe Holoubek as a medical student, a bedside EKG and a Sanborn Viso Cardiette. General medical supplies include syringes, sharps, tuberculin syringes, bottled medicines, pipettes, tongue depressors, ethyl chloride, prescription pads, and letterhead stationery.

The **Typescripts and Manuscripts** series consists of copies of handwritten formulas for prescriptions, poems about medicine, an article about women in medicine by Alice Holoubek and a paper presented by Joe Holoubek about his cardiology practice in northwest Louisiana.

The **Slides** series contains both glass lantern slides and the more modern cardboard-mounted film slides. The glass lantern slides depict diseases such as ulcers, heart disease, measles, mumps and chicken pox. The film slides also deal primarily with medical topics such as cardiology, childbirth, electrocardiographs, aging, family planning and "the Third Age," or retirement. A vintage Ednalite Projection Pointer (a precursor of a laser pointer) used in talks presented by the Holoubeks is included.

The **Plaques and Awards** series contains plaques from the American College of Physicians, American College of Cardiology, and the Council on Clinical Cardiology. Also included are certificates for completion of internship and licenses to practice medicine in Louisiana.

The **Audiovisuals** series consists of professionally recorded glass and vinyl recordings and videotapes concerned with medical topics such as heart sounds, diabetes, osteoporosis, alcoholism and anxiety. Also included is a group of self-recorded tapes of presentations made by the Holoubeks on retirement, sexuality and osteoporosis. Recordings produced by pharmaceutical companies that mix product advertising (Miltown, Appetrol, Milpath) with

recorded music (Beethoven, Schubert, Smetana) include the Wallace Laboratories Recorded Medical Library.

The **Books** series consists of the books used by Alice Baker Holoubek in preparing her lectures and workshops about sex in marriage and religion. Titles include *How to be a happily married mistress*, *Sexual awareness*, *Sexual ethics and Christian responsibility* and *Marriage is for grownups*.

The **Medical Memorabilia** series contains postage stamps depicting doctors and medical topics, prints of “The Doctor” by Sir Samuel Luke Fildes, figurines depicting physicians, men’s ties with medical themes and a lab coat worn by Dr. Joe E. Holoubek. A pull-down wall chart entitled “Intra-Uterine Life” by Gustave Michel was published in 1916.

This Collection does not include any of the documents generated by Dr. Joe Holoubek in his quest to establish a medical school in Shreveport. Materials related to that and many other events in the lives of Joe and Alice Holoubek can be found at the Louisiana State University Shreveport’s Archives and Special Collections. The following links will provide additional information: <http://scripts.lsus.edu/libarchives/collections.php?collection=628>  
<http://scripts.lsus.edu/libarchives/collections.php?collection=637>

## **SERIES**

- A. Doctors’ Bags
- B. Medical Instruments, Equipment and Supplies
- C. Typescripts and Manuscripts
- D. Slides
- E. Plaques and Awards
- F. Audiovisuals
- G. Books
- H. Medical Memorabilia

## **BOX LIST**

### **Box 1**

#### **Doctor's Bag #1**

Light brown top grain cowhide bag manufactured by Schell (#10-148 14). 4"x 9"x 6".

#### Contents

- bottle of alcohol
- alcohol prep pads
- cotton balls
- glass ampules of medicine
- medicines
- disposable gloves
- tongue depressors
- Johnson & Johnson first aid kit in metal container
- disposable syringes
- medical sponges
- surgical dressing
- obstetrical towelettes
- Littmann stethoscope
- Taylor Instrument Company portable blood pressure device C221. Rochester, N.Y. (Tycos)

Baumanometer mercurial blood pressure apparatus. Model 300. (Desk model) In gray metal case. Tycos pre-calibrated cuff.

### **Box 2**

#### **Doctor's Bag #2**

Black leather top grain cowhide. 14"x 6"x 6".

#### Contents

- box of syringes and medicines
- disposable gloves
- bronkometer
- prescription forms imprinted "Joe E. Holoubek M.D., Alan J. Borne M.D., Kenneth E. Booth M.D., Maurice A. Hawley M.D., 1801 Fairfield Suite 301, Shreveport LA".
- tongue depressors
- prefilled syringe
- BMS Exactus II blood pressure device
- stethoscope – Jetliner Misdorn-Frank Germany
- disposable plastic syringes (2)
- cotton balls
- bottle of vistaryl

- Dramamine
- Cotton balls

Baumanometer mercurial blood pressure apparatus. Kompak model (desk model).

In gray metal case with engraved plate on top reading "Alice Baker Holoubek, M.D."

Manufactured by Baum. Tycos pre-calibrated cuff.

### **Box 3**

#### **Doctor's Bag #3**

Organizer of black textured leather made by Schell. Stamped "Joe E. Holoubek, M.D."

Two interior compartments and one pocket. 15" x 11" x 5.5".

#### Contents

##### Compartment 1

- stethoscope marked Medics-Bowles Made in U.S.A.

##### Compartment 2 Outside pocket

- original tag "Schell Leather Goods, Cincinnati EMDEE Organizer 5681-54425"
- original instruction for the snap-lock from Schell.
- back leatherette folder labeled "The House Call Record" inside is a pad of forms for recording information about house call patients.

##### Compartment 2

- bundle of cotton swabs
- tube of tongue blades (tongue depressors)
- bandaids
- alcohol prep cloths
- glass vials of medicines
- bandages
- syringes
- disposable gloves

#### **Doctor's Bag #4**

Light brown top grain cowhide bag manufactured by Kruse. 14" x 8" x 7".

#### Contents

- tongue depressors
- adhesive tape
- bottle of alcohol
- bandages
- gauze pads
- alcohol swabs
- disposable gloves
- obstetrical towelettes
- aspirin in a tin container
- syringes

- prefilled Xylocaine syringes
- snake bite kit
- snake bite kit – suction (packed 8/53) Geo. W. Luft Co. L.I.C., N.Y.
- box for Donnazyme by Robins (medicine not in there)
- various boxes of bandages
- stethoscope Bowles Model made in USA chrome – Dittmar
- box of Anacin-3 dated 1989
- box of Advil dated 1989
- prescription pad for “Joe E. Holoubek, M.D., Alice Baker Holoubek, M.D., Alan J. Borne M.D., Ken E. Booth M.D., 1513 Line Avenue, Shreveport

#### **Box 4**

#### **Doctor’s Bag #5**

Two- handled bag of black cobbled leather. Top half of bag is hinged and opens into two separate sections that lie flat to either side when opened. Bottom half of bag also gives storage for instruments, etc. Label on inside reads “a genuine Pandora...” 17” x 10” x 6”.

#### Contents

##### Left side compartment 1

- glass containers of medicines manufactured by Searle, Lilly, Parke-Davis, Sharpe & Dohme (18 items)

##### Left side compartment 2

- professional sample packets of Tabloid Empirin compound (7 items)
- gauze pads (2 items)
- glass test tube
- roll of adhesive tape
- glass vials of medicine in boxes (10 items)
- glass vial of medicine

##### Right side compartment 1

- roll bandage
- prescription medicine from Williams Physicians and Surgeons Pharmacy on Jordan Street, Shreveport dated 9/26/53
- prescription from Williams Physicians and Surgeons Pharmacy No. 2 1509 Line Ave., Shreveport
- glass slides wrapped in paper towel
- syringes
- various medicines

##### Bottom of bag

- black zipper case containing 8 glass bottles of medicines and liquids
- bottle of Murine
- small box of cotton and one blade
- adhesive tape in a container
- prescription from Williams Physicians and Surgeons Pharmacy No. 2 1509 Line Ave., Shreveport

- gauze pads
- professional samples of Bonamine
- glass bottle of alcohol (evaporated)
- glass bottle of paregoric
- stethoscope – Pilling
- special stethoscope Bowles patent. G.P. Pilling & Son Philadelphia U.S.A.
- extra stethoscope diaphragm – same markings as above
- tube of sterile lubricant
- various medicines

### **Doctor's Bag #6**

Kodak camera bag used as small emergency medicine bag carried in the car.

#### Contents

- medicine
- disposable syringes
- rubber tubing
- alcohol prep pads
- bandaids

### **Box 5**

#### Hematology Analysis Kit

includes reagents and glass pipettes to be used in conjunction with a hemocytometer to count white and red blood cells. Manufactured by B-P (Bard-Parker Co., Danbury, Connecticut). In off-white plastic case

Gebauer's Ethyl Chloride. Gebauer Chemical Co., Cleveland, Ohio. (circa 1942)

Used for topical refrigerant for local and general anesthetic. 100 gram tube in cardboard box (3 tubes)

Haemacytometer by Adams.

In red leatherette case

May Ophthalmoscope. American Optical Company. No. 115S. In black case. Battery operated.

The May ophthalmoscope was invented by Charles H. May, M.D. around 1915.

Used in the practice of Drs. Holoubek and Holoubek in the 1950s.

Ophthalmoscope and accessories. Manufactured by Boehm, Rochester, NY.

All contained in a black case.

Used in the practice of Drs. Holoubek and Holoubek in the 1950s.

Ophthalmoscope accessories. Manufactured by Welch & Allyn.

green plastic specula (2)

Sentinel utility first aid kit. Manufactured in Cleveland, Ohio.

metal box only, no contents.

Simplex Otoscope by Wellsworth-DeZeng Diagnostic Instruments.

In black case.

Spencer Bright Line Haemacytometer. Spencer Lens Co., Buffalo, NY.

In red cloth covered case.

## **Box 6**

Instruments and equipment

- Biopsy forceps
- Boilo head mirror 4x12 in box. Manufactured by Carstens, Norridge, Illinois
- Boehm ophthalmoscope handle
- Ear syringe, red rubber
- hook – Kny-Scheerer Germany
- Metal handle for instrument
- Polaroid goggle No 1060 with red tint lenses
- Rubber reflex hammer
- Safety goggles with red tint lenses
- Scalpel handle, Bard-Parker #3 (2)
- Speculum, small, two pieces (R3 engraved)
- Steel nasal speculum
- Trocar, abdominal (4)
- Unidentified device with bakelite handle, two metal probes and two electrical or electrode connections. Manufactured by National. Long Island, N.Y. (in cardboard box)
- Vaginal speculum

## **Box 7**

EKG tapes (7)

OptiVisor safety device manufactured by Donegan Optical Company.

A precision binocular headband magnifier.

Roll of chart paper to be used with a McKesson Metabolor apparatus. Chart paper M-147.

(unused) in red cardboard box.

Vital Capacity Apparatus manufactured by McKesson-Scott. Green metal apparatus with black rubber bellows and hose.

Used to measure pulmonary capacity.

## **Box 8**

Clay-Adams Scopelite.

BD Empire all-metal syringe (4 oz.) with two removable tips. In brown cardboard box.  
#478/4 manufactured Becton, Dickinson & Co., Rutherford, NJ.

Bulb and bag set used for intermittent inhalation of aerosol medication, circa 1950.  
In orange box with label for a different item.

Bulb and bag set used for proctoscopic exams

Collapsible metal pointer

Laser pointer

Long metal with twisted ends (2)

Lucite letter opener from Tranxene

Metal calipers

Metal topped glass receptacle with perforated metal tray insert used for boiling syringes,  
needles and instruments during the era when boiling was considered adequate sterilization.  
Contains 3 glass syringes. B-P trademark circa 1940s.

Pen flashlight

Pen from Vasotec with pills embedded in handle

Pen engraved with Equestrian Order of the Holy Sepulchre of Jerusalem.

Pocket road atlas distributed by LSU School of Medicine Medical Alumni Assn.

## **Box 9**

### Syringes

- B-D 2cc Multifit syringe with 2 needles (5 sets)
- B-D 2cc Multifit syringe with 2 needles (Holoubek and Bianca practice) 3 sets
- B-D Dynafit 2cc glass syringe with 2 needles
- B-D Multifit 2cc glass syringe with 2 needles dated 7/17/64
- B-D Multifit 5cc glass syringe with 2 needles
- B-D Yale 10cc spinal needle used for spinal taps at home dated 7-17-64
- B-D Yale Luer-Lok 20cc glass syringe with 2 needles (2 sets) one set dated 4/23/68
- B-D Yale Luer-Lok 2cc glass syringe with 2 needles (2 sets)
- B-D Yale tuberculin syringe – blue glass plunger in clear glass syringe with needle
- B-D Yale tuberculin syringe with needle
- Glass syringe
- Ideal Lock 5cc glass syringe, green plunger with 2 needles (2 sets) one dated 4/23/68
- Super ward 2cc glass syringe with 2 needles

Glass vials filled with medicines (8)

Pipettes with rubber tubing (2)

Wooden tongue depressor

### **Box 10**

Glass pathology slides from medical school (66). The "Object Register" indicated that the box is the property of Joe E. Holoubek.

- Box of ½ ounce microscopic cover glass squares
- box with two round glass covers
- box of Dennison gummed labels used for identification
- metal holder of some sort.

Joe Holoubek Sr. blood slides 1948-52 (laboratory slides)

Norton Abrasives – a hone used to sharpen reusable needles

Turkel trephine (instrument for bone marrow infusions) one set. Manufactured by Trephine Instruments, Detroit, Michigan. [1 item missing from box].

Vaginal pipettes No. A-2263 for the Papanicolaou stain technic. Manufactured by Clay-Adams, Inc. New York 10, N.Y.

- Red outer box with 11 interior boxes, each box with two pipettes.

B-D Sterile disposable glass syringe

- Hypak 25 No. 701 DN ½ cc. with detachable needle 26g. 3/8 intradermal

Cassette tapes in box (label on outside indicates more tapes than what are present)

- LSUMC 50<sup>th</sup> "This I Remember" #1
- LSUMC 50<sup>th</sup> "This I Remember" #2
- Development of LSUMC – Shreveport 1980
- Father Carroll address to Family Medicine Dept. 4/15/80
- Individuality of Life – Ratney, Dr. Wilkinson, President Nixon & ACC

### **Box 11**

Green Baret cervical traction set, overhead (1200-S) manufactured by the Larkotex Co., Texarkana, Texas

Surgical kit dated 8/22/63 containing:

- Metal scissors (1)
- Metal hemostats (2)

glass syringe, 2cc and sharp  
surgical thread  
threaded suture needle in gauze pad

Surgical tray wrapped and taped after going through the autoclave

Glasco glass beaker  
glass tubes (3)  
sharps (5)  
glass syringe, 2cc  
thermometers in metal bracket (2)

### **Box 12**

Autoclave with covered white enamel pan containing several wrapped and sterilized Instruments

### **Box 13**

Spencer Microscope, Buffalo New York. #120476 printed on back. In wooden case with additional lenses. Handwritten label on front reads "Joe E. Holoubek So 33."

Microscope purchase second-hand by Joe Holoubek, used as a medical student.

### **Box 14**

Burdick CS 515 Monitor used at the bedside to monitor EKG. Circa 1970s.

### **Box 15**

Sanborn Viso Cardiette manufactured in Cambridge, Mass. Brass plate reads "made for Joe E. Holoubek, M.D." With tray of accessories. Circa 1950s

### **Box 16**

Prescription pads imprinted with:

- J.E. Holoubek, M.D. and Alice Baker Holoubek, M.D.
- J.E. Holoubek, M.D.
- Dr. Alice Baker Holoubek
- Joe E. Holoubek, M.D. and Alice Baker Holoubek, M.D. and Alan J. Borne, M.D.
- Joe E. Holoubek, M.D. and Alice Baker Holoubek, M.D. and Alan J. Borne, M.D. and Ken E. Booth, M.D.
- Joe E. Holoubek, M.D. and Alan J. Borne, M.D. and Ken E. Booth, M.D. and Maurice A. Hawley, III, M.D.

Rubber stamp used when office relocated.

Appointment card holder with Zestril logo

Page from July 1960 calendar with days crossed off.

Stationary, blank, imprinted with:

- Dr. Alice Holoubek
- Dr. and Mrs. Joe E. Holoubek
- Mrs. J. E. Holoubek
- Alice Baker Holoubek, M.D.
- from the desk of Dr. Alice Baker Holoubek
- from the desk of Dr. J.E. Holoubek
- Drs. Holoubek and Holoubek

Samples of office stationary reading “Drs. Holoubek and Holoubek / a professional corporation / 1513 Line Avenue / Shreveport, LA. 71101 / Joe E. Holoubek, M.D. / Alice Baker Holoubek, M.D.”

Letter sent by Joe E. Holoubek to patients when he stopped the practice of medicine, turning his patients over to his former partners Dr. Borne, Dr. Booth and Dr. Hawley.

“Women in medicine, or, the woman question” by Alice Baker Holoubek, M.D., May 1986.  
typescript, 12 pp.

“Our experience in the practice of cardiology in northwest Louisiana through the years” by Joe E. Holoubek. Paper presented to the state meeting of the Louisiana Section of the American College of Cardiology.  
Typescript, 17 pp.

“The Corner Drug Store”  
handwritten manuscript about a small town drugstore, 5 pp.

“Old Prescriptions” 15 pages of handwritten formulas for prescriptions (photocopies). Many on the prescription pad of J.B. Story, M.D. Hot Springs, Arkansas and C.P. Battle & Bro, Druggists in Hot Springs, Arkansas.

Formula for “Kerwin’s Mixture” handwritten on prescription blank from Schumpert Memorial Sanitarium Shreveport, Louisiana

Brown spiral composition book with typed poems about medicine.  
typescript, 102 pp.

Poems about growing old  
Typescript, 7 pp.

“A Physician’s Prayer” printed cards (4)

Correspondence regarding the 60<sup>th</sup> reunion of the LSUMC class of 1938

Correspondence and other materials pertaining to “The Third Age,” a weekend workshop presented by the Holoubeks.

Pamphlets about medical topics, mostly related to aging and cardiac diseases

Newspaper article about Joe Holoubek winning the Shreveport Medical Society Distinguished Service award (no date)

### **Box 17**

Glass lantern slides (3 ¼” x 4”)

- Bonthine and duodenal ulcers (6)
- thyroid (6)
- heart disease USA (2)
- measles / mumps (6)
- Rubella / chicken pox (6)
- Examination: Gastric contents, feces / Procto / Psychogenic causes of illness (11)

Film slides (2”x2” in cardboard or plastic casing)

- Circulation and the heart (25 in small black case)
- Rescue Breathing (29 in 2 boxes)
- A child is born (16)
- Healthcare in Louisiana 1991 (54)
- Heart Facts (49 in 2 boxes)
- Rheumatic fever (10)
- Preventive heart disease (38 in 2 boxes)
- Schumpert cardiac rehab (86 in 3 boxes)
- Heart - talk on rheumatic fever (8)
- Cardiac emergencies (9)
- Heart medicine, Medical (40)
- Physicians should be conservative in appearance (21)
- Pulmonary embolism #1 (25)
- Pulmonary embolism #2 (20)
- Electrocardiographs (14)
- Medical Office – 1513 Line Ave. (15)
- Medical 1950 (13)
- Medical (12)
- Medical talk (7)
- Medical (14)
- Diaphragmatic hernia (41 mix of glass and cardboard mounted)
- The Third Age #2 (64 in 3 boxes)
- Third Age (52 in 2 boxes)
- Aging (26)
- Family Planning (80 in 4 boxes))

- Medical (33 in 2 boxes)

### **Box 18**

Film slides (2"x 2" in cardboard or plastic casing)

- Exercise Test EKG (47 in 2 boxes)
- When Life Blooms Full. Intro (40 in 2 boxes)  
Cassette with narration for this filmstrip
- Catholic physicians (52 in 2 boxes)
- Unidentified slides (253)
- Roots of LSU Medical School Shreveport (moved to LSUHSC-S history slide collection)
- Medical School (moved to LSUHSC-S history slide collection)

Ednalite Projection Pointer used for talks given by Holoubek

### **Box 19**

The Joe E. Holoubek, M.D. Endowed Professorship in Medicine at LSUHSC in Shreveport. Dr. Pratap C. Reddy named to professorship on August 29, 2006, certificate signed by John C. McDonald.

Framed certificate

American College of Physicians, April 27, 1947. Joe Edward Holoubek, M.D. elected Fellow.  
Framed certificate

Joe E. Holoubek, M.D. In appreciation for the foresight, dedication and endurance that brought into existence the Medical School of Louisiana State University Medical Center Shreveport. Presented by the LSU Medical School Graduates of 1993.

plaque

### **Box 20**

American College of Cardiology. Certificate of Appreciation. J.E. Holoubek is commended for his service and contribution as Governor of Louisiana for the American College of Cardiology 1973-1976.

Plaque

Council on Clinical Cardiology, American Heart Association. This certificate bears witness that Joseph E. Holoubek has met criteria of eligibility and has been duly elected a Fellow of the Council on Clinical cardiology. Dated October 15, 1970.

Plaque

University of Nebraska School of Medicine certificate for service as an Intern at the University Hospital from July 1, 1938 to July 1, 1939 to Joe Edward Holoubek.

Plaque

Louisiana State Board of Medical Examiners. Alice Elizabeth Baker [Holoubek] license to practice medicine in Louisiana dated June 15, 1939.

Plaque

Louisiana State Board of Medical Examiners. Joe Edward Holoubek license to practice medicine in Louisiana dated December 9, 1939.

Plaque

Louisiana chapter of the American College of Cardiology recognizes Joe E. Holoubek, MD, FACC for his distinguished service and contribution during his career. Presented December 5, 1998.

Plaque
